All our products are a "Sustainable Design" and are the most Eco friendly, durable and maintenance free commercial and residential furnishings you will ever own!

1. (Not imported) 100% USA Made!
2. Any of our products that are ever damaged can be recycled into reusable metal.
3. Our tables can be re-finished many times over from the original colors and finishes.
4. We use only recycled boxing for packaging.
5. Always consolidate orders for the lowest fuel usage for shipping.
6. Any scrap metal from our daily production is recycled back to our USA material suppliers.
7. The only wood products we use are from recycled crates and pallets for shipping.

Our fire pits are individually constructed by hand in the USA. We use steel coated with a revolutionary ploymer making it nearly indestructible. It will not rust, tarnish, bleach in the sun or burn. Simply put, anything we produce will be the most durable, longest lasting home improvement you will ever own.

A. Athena Cocktail
Finish: Nova

B. Athena Dining
Finish: Lava Red

C. Custom Stone

Our contemporary fire pits are fabricated using 98% USA Recycled Steel and finished in a trademark Armor finish to ensure a long life and extremely high durability.

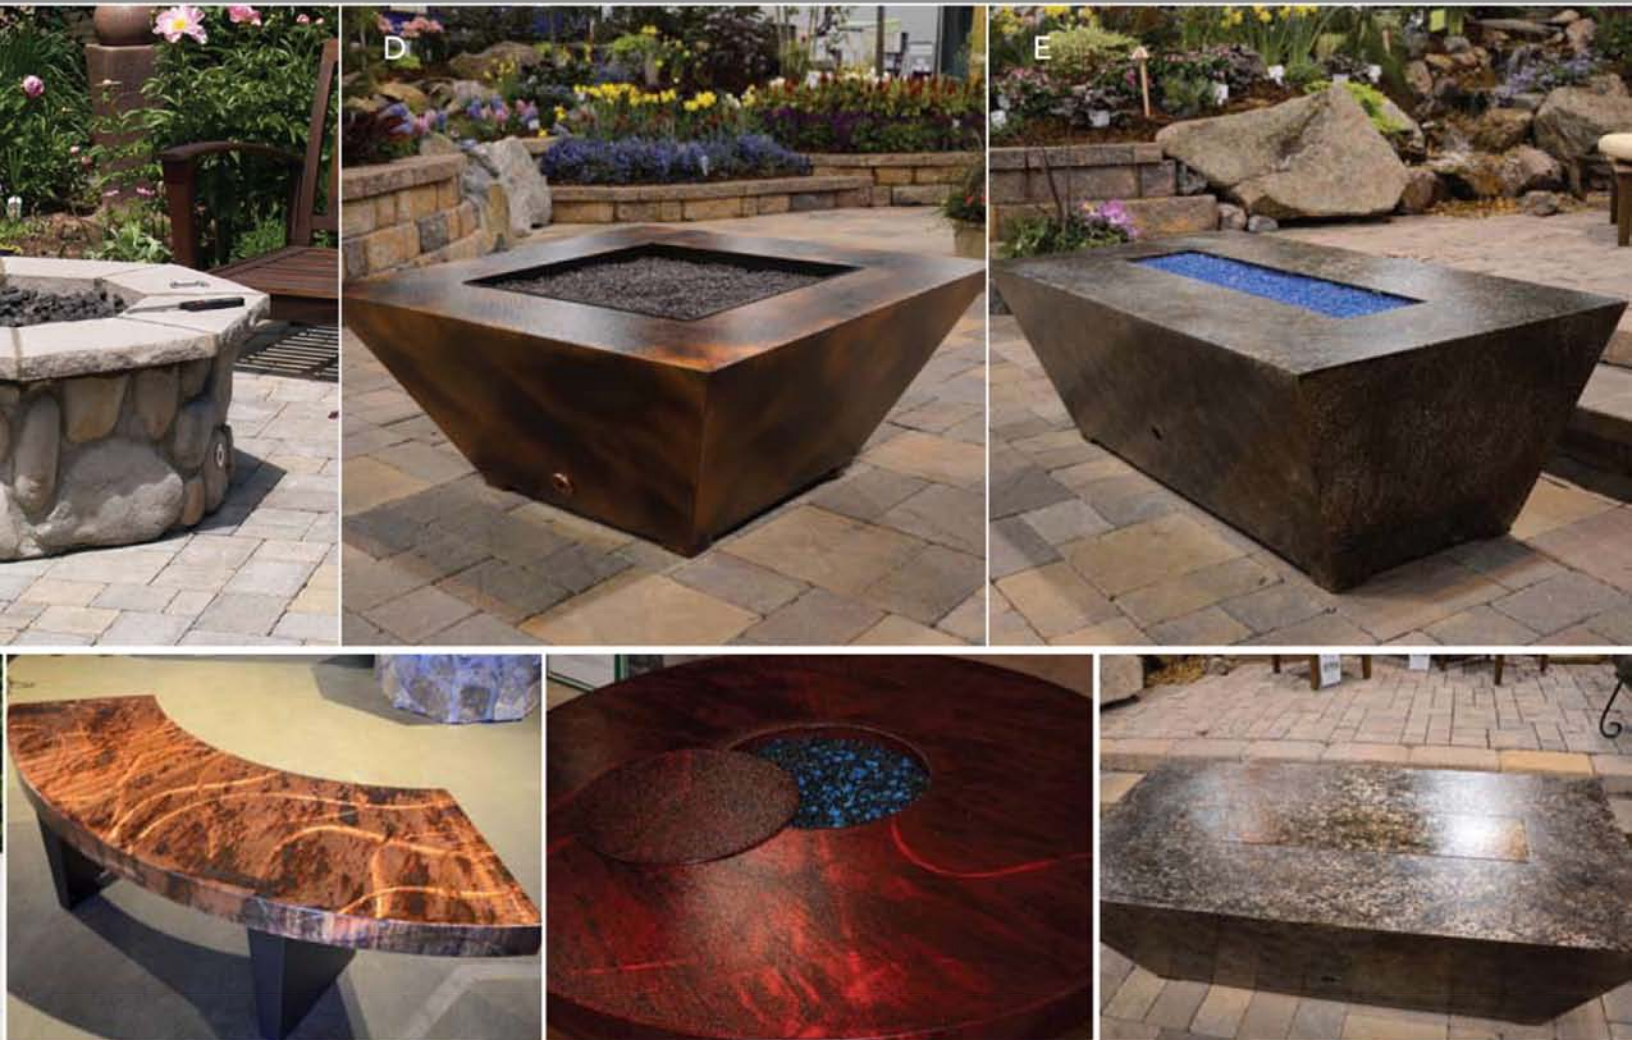

Each Parallax fire pit is hand finished with our beautiful Armor Coating which is heat resistant up to 400 degrees, scratch resistant, ultraviolet proof and easy to clean.

Since each fire pit is hand finished and hand ground, each one will vary slightly giving them a truly unique one of a kind appearance like no other.

Our Handcrafted Complete Custom Stone Gas Fire Pits are custom made with your choice of the base stone and cap stone color.

We fabricate your Custom Fire Pit around a powder coated welded steel frame which will never rust or corrode on your patio or deck.

Once the frame has been made, we skin it with cement board and metal lathe and then our masons will mortar the base stone & cap stone, that you have chosen, to the skinned frame. After the fire pit has dried for 36 hours we then install the gas components and package your Fire Pit for shipping.

D. Parallax Square
Finish: Tuscan

E. Parallax Rectangle
Finish: Provance
